

## PARLEY P. SENDS WIRE TO HARDING

Asks Candidate If He is Willing to Protect Farmer Against Loss

SAN FRANCISCO, Oct. 25.—As a means of relieving what he described as a "desperate situation" faced by the farmers of the western agricultural districts, Parley P. Christensen, Farmer-Labor party candidate for president in a telegram sent to Senator Warren G. Harding, asked the Republican candidate for president, if he would approve of a measure insuring the farmer against loss. He compared such a measure to the protection afforded the railroads in the Esch-Cummins act.

The telegram:

"My tour through the western states has made it apparent to us that the farmers of the great western agricultural districts are facing a desperate situation. Corn is down to about 50 cents. Wheat is dropping. The farmers, seeking relief from conditions that were certain to follow the war with the falling of war time prices have been ignored by the present administration.

"I am moved by these considerations to put to you as candidate to succeed the head of that administration, the following question:

"You voted against government operation of the railroads and in favor of the Esch-Cummins act guaranteeing the owners of the railroads against loss and insuring them of profits of at least 6 per cent on their nineteen billions of capital, without even squeezing the water out.

"Would you approve of a measure similarly guaranteeing the farmer against loss on his crops?"

"Would you approve of a measure insuring profits to the farmer upon his actual investment (no watered stock) or do you feel that the farmer is not entitled to the same consideration at your hands as are the railroad owners?"

## Willard Mack Files Bankruptcy Petition

NEW YORK, Oct. 23.—Charles W. McGlaughlin, better known as Willard Mack, the actor and playwright, filed a voluntary petition in bankruptcy today in the United States district court, alleging that his liabilities exceeded \$17,000, and declaring that he has no assets. According to the petition, the veteran actor is worse than broke. His wearing apparel, furniture and his \$2500 automobile are being held by creditors.

Mr. Mack had been living at the Hotel Ansonia until September, when he moved to 157 West Forty-seventh street. He said that he owed the hotel \$1250 for board and room for July and August, and that his clothing and baggage were being held as security.

In lieu of payment of a debt of \$2,661 for repairs, Healey & Co., 252 West 65th street, are holding his automobile. Mr. Mack says that John W. McGrath is holding a \$2500 diamond as security for a \$750 loan. Other creditors named by the actor are David Peluso, McHugh Furniture Co., No. 3 West 42nd street, and "Tom" Healy, whom Mack owes a little matter of \$125 for "merchandise."

## BOMBING PLANES MAY FLY TO YELLOWSTONE

BUTTE, Mont., Oct. 23.—Commercial organizations in Butte are considering the project of establishing airplane passenger routes between Butte and Yellowstone national parks. This has been suggested by Harvey A. Berglund of Billings, who was an aviator during the world war.

The plan includes the bringing to Butte of a number of 40-passenger airplanes built by the government for bombing. It is estimated that such an airplane could leave Butte at 1 o'clock in the morning and reach Yellowstone park at 9:30 a. m. Glacier park could be reached, it is said, in a trip of three hours by air. The distance by road from Yellowstone to Glacier park is 400 miles, while by air it is only 275 miles.

Aviator Berglund estimates he could make a trip with one of the large passenger planes to Glacier park in the morning, and by leaving there at 4 p. m. could bring back passengers to Butte the same day. Berglund has made a flight from Billings to Minneapolis in 12 hours.

## REDS SAYS ALLIES VARY WITH SOVIET DEFEATS

LONDON, Oct. 23.—Leo Kamenoff, formerly Russian trade agent here was ordered by the British government to leave England, has arrived in Moscow and told the bolsheviks that the attitude of allied governments in Europe toward them has changed in accord with the situation on the Russian war front, say Russian advisers. "The supporters of intervention have again raised their heads," he said. "The allies are making still one more effort to overturn the soviet government and have staked everything on General Wrangel."

"On the day when Lloyd George told me to leave London," he stated, "the Bank of England started cashing General Wrangel's checks. A direct war against Russia is very unpopular in England and the working classes demand peace. Therefore Lloyd George did not decide to announce openly the alteration in his policy and even my departure was explained by the two excuses of financial assistance to a labor newspaper and constant relations between soviet Russia and the council of action."

"The further course of events in England and Europe depends on the manner in which soviet Russia defeats Wrangel," concluded Kamenoff.

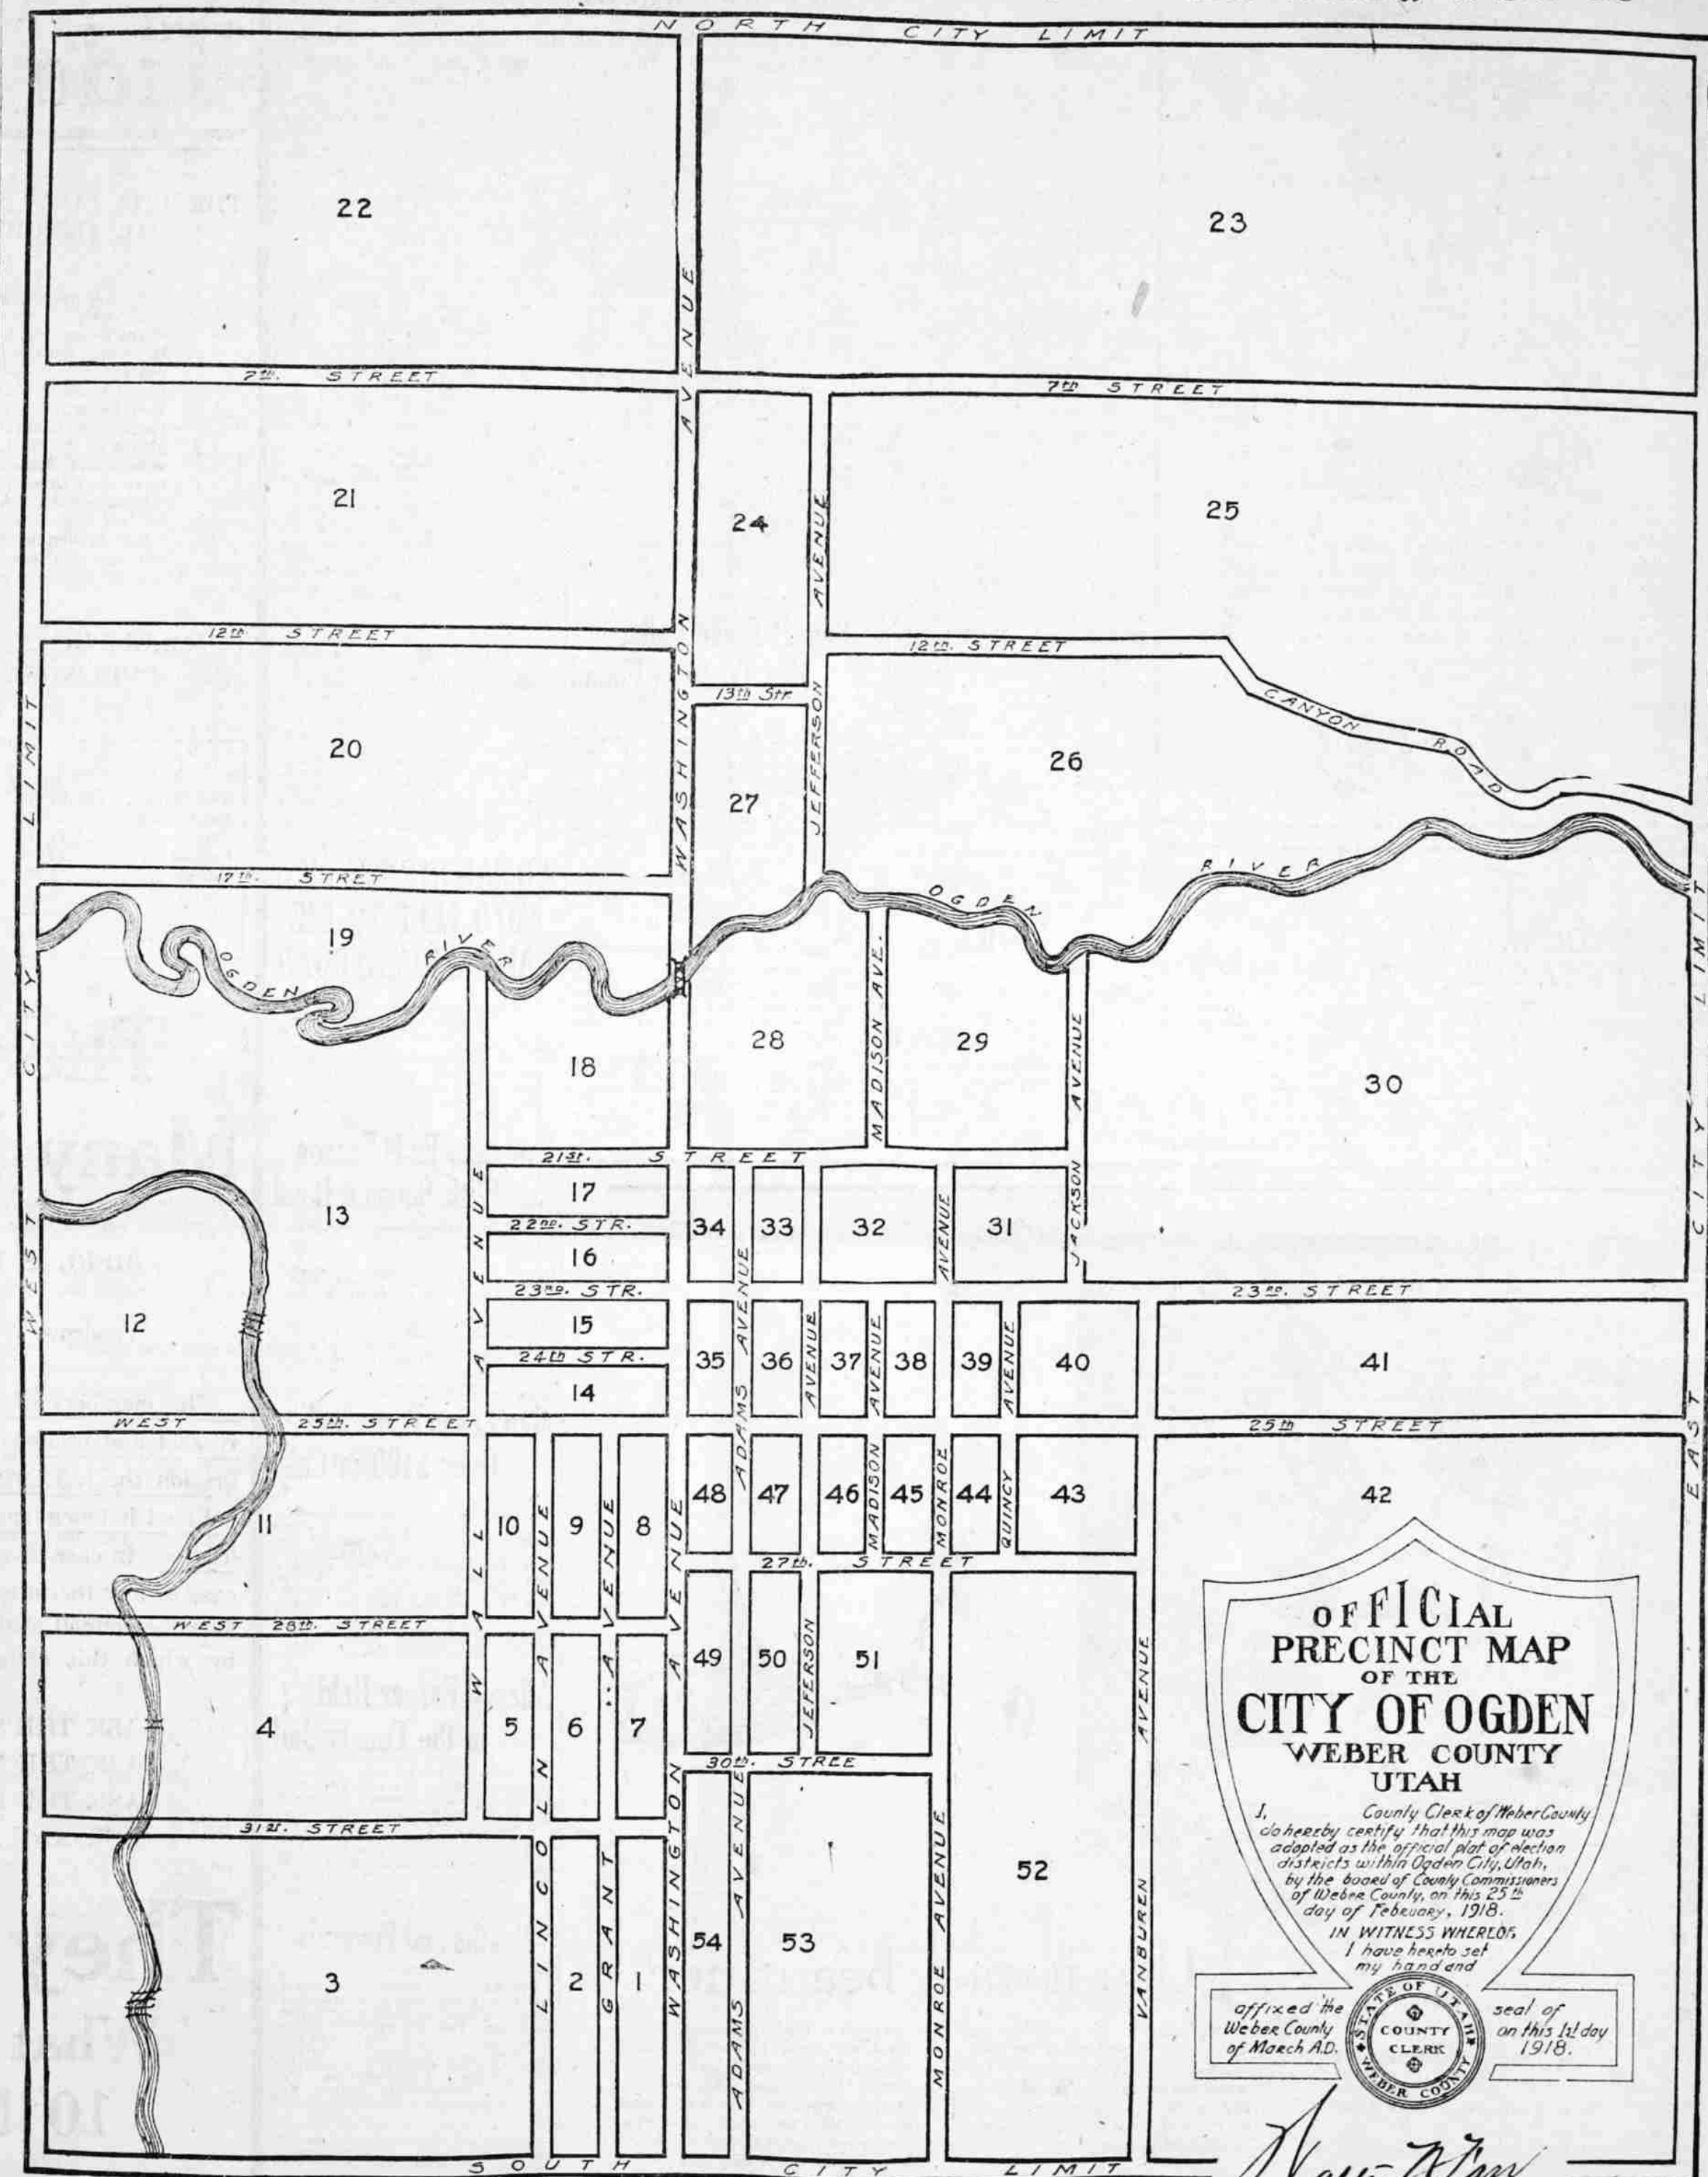

We suggest that the "dry" disinter John Barleycorn and ascertain if the coffin isn't really filled with bricks or something.—Columbia Record.
